

AI JURY: Transforming India's Legal System with AI

An AI-powered platform revolutionising legal workflows across India's judiciary, from grassroots courts to the Supreme Court.

The Looming Crisis in India's Justice System

India's judiciary is buckling under an unprecedented burden that threatens the very foundation of accessible justice for its citizens.

5Cr+

Pending Cases

Over 5 crore cases
awaiting resolution
across Indian courts

70%

Manual Processing

Cases still rely on
paper-based
documentation and
manual reviews

0

Decision Support

Judges and lawyers lack
intelligent tools for case
analysis

Legal data remains scattered, unstructured, and poorly digitised. The result is delayed justice, eroding public trust, and an overwhelmed legal ecosystem crying out for transformation.

Introducing AI JURY: Your Intelligent Legal Co-Pilot

Comprehensive AI-Powered Legal Automation

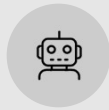

NyayaAI is India's first end-to-end AI platform that digitises, parses, and streamlines legal workflows with unprecedented intelligence and efficiency. Seamlessly integrated with India's e-Courts infrastructure, NyayaAI combines cutting-edge OCR, Natural Language Processing, and Agentic AI to transform how legal professionals work—improving accuracy, speed, and public trust.

Core Capabilities: Intelligence Meets Legal Excellence

OCR + NLP Parsing

Digitises physical and scanned documents, including handwritten affidavits, with exceptional accuracy

Agentic AI Assistant

Proactive legal co-pilot for judges and lawyers, suggesting case laws and detecting missed sections

AI Jury Chatbot

A public-facing legal assistant that answers queries, explains laws simply, and tracks case progress.

Auto-Drafting Engine

Generates legal documents—agreements, notices, affidavits, petitions—in regional formats automatically

Abuse Detection System

Identifies repeat filings, bail misuse, and cross-document inconsistencies to protect system integrity

Dynamic Learning

Continuously improves intelligence repository with each processed case, getting smarter over time

The AI JURY Advantage: What Sets Us Apart

01

Proactive Intelligence, Not Just Data Storage

Unlike passive legal databases, NyayaAI actively assists in daily workflows with predictive insights

02

Complete Workflow Integration

Seamlessly embedded into existing judicial processes, not a standalone tool requiring separate workflow

03

Multilingual & Regional Support

Understands and generates documents in multiple Indian languages and regional legal formats

04

Abuse Prevention Built-In

Unique capability to detect and flag misuse of legal provisions, protecting system integrity

Competitive Landscape: AI JURY vs Traditional Systems

Feature	NyayaAI	Traditional Systems
Proactive Intelligence	✓ Active Assistance	✗ Passive Data
Workflow Integration	✓ Seamless	✗ Standalone
Auto-Drafting Support	✓ Full Support	✗ Manual Only
Abuse Detection	✓ Built-In	✗ Not Available
Predictive Timelines	✓ AI-Powered	✗ Not Available

 **Key Insight:** Unlike e-Courts or legal databases such as Manupatra and SCC Online, NyayaAI actively assists in daily legal workflows whilst learning dynamically from every interaction.

The Road Ahead: Scaling Legal Intelligence

Government Integration

Seamless connectivity with e-Court services, legal aid platforms, and state portals

AI-Assisted Dispute Resolution

Expanding grassroots access through intelligent mediation and resolution tools

Dynamic Legal Intelligence

Real-time updates across urban and rural courts, creating a unified legal knowledge network

Why Stakeholders Choose AI JURY

Massive Social Impact

Democratises access to justice for 1.4 billion citizens, ensuring no one is left behind in the legal system

Infinitely Scalable

Serves everyone from small district courts to the Supreme Court with the same level of intelligence and efficiency

AI-First Architecture

Learns continuously from every case, predicts timelines accurately, and ensures process integrity through intelligent monitoring

Regulatory Compliance

Fully compliant with Indian laws, data protection standards, and seamlessly integrated with the e-Courts framework

Justice Delayed is Justice Denied

With AI JURY, Justice is Delivered

Join us in transforming India's legal system—where AI meets accessibility, intelligence meets integrity, and technology meets timeless justice.
